Delta Rotating Solutions is a provider of a broad range of high quality mechanical flexible couplings and torque limiters. Our product range includes 4 categories of flexible shaft couplings and friction type torque limiters. We offer Jaw Couplings, Metal Flex Couplings, Tire Couplings, Pin-Bush Couplings, Friction Torque Limiters, Ball Detent Torque Limiters.

Trimantec™ is a full-service electro-mechanical assembler and contract manufacturer of CUSTOM CABLE ASSEMBLIES AND CUSTOM WIRE HARNESSSES. Our expertise ranges from module-based designs, to complete ready-to-ship, fully tested assemblies. We are adept at wire assemblies ranging from small gauge, tipped and tinned hook up wires; to complex test cables that contain miles of wire, multiple breakouts and specialty connectors. CUSTOM MACHINED PARTS, Milling and Turning, Sheet Metal Fabrication, Welding, ISO9001:2015 QMS.

Reliable Collaborative Robot Series, Easy-to-Program, Industry Leading Specifications for Payload, Reach and Speed Configurable Low-Voltage Inputs and Outputs for Easy System Integration S-Series Force Control Combines with Optional Camera for Self-Learning and Natural Human-Cobot Cooperation 6-Axis, Graphical Programming, Free-Drive w/ MT (PAD/Mobile) APP, Collaborative Operation in Accordance with GB 11291.1-2011 Remote Interaction, Plug and Play, Open Software and Hardware Ecosystem
